Profile Summary

Results-driven Business Intelligence & Data Analyst with 2+ years of experience delivering insights through Power BI, SQL, and SAP BO. Proven success in sales, supply chain, and customer analytics. Skilled in DAX, data modeling, and ETL validation. Beginner-level Python skills with growing interest in machine learning. Long-term goal: transition into a Data Scientist role. Open to remote roles globally and across India.

Professional Experience

BUSINESS INTELLIGENCE ANALYST | AMPHENOL FCI- Thykoodam, IN | Aug 2022 to Present

- Migrated legacy SAP BO reports from Deski 3.1 to BI 4.3, enhancing automation and access control.
- Developed executive Power BI dashboards for Sales, Customer Churn, Inventory, and Supplier KPIs.
- Created DAX-driven insights and slicers for dynamic performance monitoring.
- Conducted data validation and cleansing using SQL queries and ETL logs.
- Collaborated cross-functionally to gather reporting requirements and ensure UAT success.
- Maintained documentation for BI delivery lifecycle and troubleshooting logs.

Projects (Power BI, Python, SAP BO, SQL)

BO Migration & Report Modernization (SAP BO BI 4.3, Deski 3.1, Windows Server)

- Led end-to-end migration of reports from SAP BO Deski 3.1 to BI 4.3 across DEV and PROD environments.
- Rebuilt WebI reports, conducted UAT with users, and implemented automated scheduling.
- Managed access control and ensured stability during deployment.

Retail Sales & Profit Dashboard (Power BI, DAX, Excel)

- Built an interactive dashboard to analyze sales, profit, and performance by region and product.
- Used advanced DAX, slicers, and drill-through features for dynamic insights.

Customer Churn Prediction (Power BI, Python (Colab), Pandas, Matplotlib)

- Performed EDA and visualization in Python.
- Built Power BI dashboard with AI visuals and KPI indicators.

Supply Chain & Spend Analysis Dashboards (Power BI, Power Query)

- Created dashboards for supplier KPIs, inventory levels, and procurement spending.
- Integrated and transformed datasets using Power Query.

SQL-Based Data Validation & Troubleshooting (SQL, SAP BO, Excel)

- Queried databases to identify mismatches and correct reporting issues.
- Developed reusable SQL scripts for recurring error checks and validations.

Technical Skills

- **BI Tools:** Power BI, SAP BO (BI 4.3, Deski 3.1), Informatica
- **Languages:** SQL, Python (Pandas, NumPy, Matplotlib), DAX
- **Analytics Areas:** Sales, Churn, Inventory, Supply Chain, Spend, Customer Insights
- **Platforms:** Google Colab, Google Cloud Platform, Excel, SAP Fiori
- **Soft Skills:** Stakeholder Collaboration, Documentation, Data Storytelling, UAT

Education

Bachelor of Technology in Computer Science & Engineering

Indian Institute of Information Technology, Kottayam

Jul 2018 to May 2022
